Subject:	Issues/Improvements in HBB Rev 8+		
Description:	List any bugs/issues or slight improvements that can be made in HBB Rev 8+ here.		

History

03/28/2009 09:10 PM - teknecal

CashMan had issue with loading settings.xml that was already on before hand, adding checking to make sure loaded settings are valid.

[20:34] <CashMan93> www.cashman-productions.fr.nf/hbb.jpg

[20:35] <CashMan93> it's just a little graphical bug

[20:39] <CashMan93> to return to the system menu without the health screen

[20:40] <CashMan93> Wii_Initialize();

[20:40] <CashMan93> Wii_ReturnToMenu();

03/28/2009 09:17 PM - teknecal

- Category set to Functionality

- Assigned to set to teknecal

- Target version set to v0.3

03/28/2009 10:15 PM - teknecal

To add ability to skip the download of the images zip file.

To add ability to download applications when HBB is checking images.

This has been confirmed. I have finally got the MP3 file to play normally, however on occasion it does still code dump, usually when pressing download or cancelling a download. I believe it might be better just to use MOD files for the time being.

03/29/2009 08:08 PM - teknecal

Now using mod files.

Fixed.

03/31/2009 09:15 PM - tekneal

SDHC: Yes text fixed.

04/10/2009 02:51 PM - tekneal

Fixed issue with IR being on screen when IR wasn't pointed to screen (used ir.valid instead of ir.raw_valid).
